Topics

The conference will investigate the following topics:

1. What growth concept for the future?
2. The role of financial markets in the neoliberal agenda and in the new growth concept
3. Sustainability of the public and external debt
4. Mobility of capital and labour in Europe and their effects
5. Lessons from India and China
6. Competitiveness after the crisis, the role of business finance, accounting and marketing
7. Different models of corporate governance, varieties of capitalism and the resilience to the crisis
8. Knowledge-based and innovative entrepreneurship and competitiveness
9. New media and channels in a changing business environment

All papers not investigating the above listed topics but discussing other challenging issues related to the general topic of the conference will be considered as well.
